SUMMARY

Full-Stack Developer at Spirit Hub

EDUCATION

Purdue University
Computer Science 2018

EMPLOYMENT

Spirit Hub

Full-Stack Developer · Jan. 2019 – Current

-Spirit Hub is an online retailer that ships craft spirits directly to your door from small batch distilleries (https://www.spirithub.com/)
-Built a full e-commerce platform and content management system from scratch
-One of the two original developers with myself focusing on front-end development

Federal Reserve Bank of Chicago

Web Development Intern · June 2017 – Aug. 2017

-Primarily worked on maintenance and update requests for the federal reserve sites
-Assisted in the migration of the old federal reserve site to a newer template

Panduit

Software Engineering Intern · May 2016 – Aug. 2016

-Developed a distributor locator with google maps that shows all the available product locations
-Created a indoor map tool using a Javascript library called Leaflet
-Worked on making the website fully responsive

Purdue University ECE Department

CAM2 Front-End Team Leader · Sept. 2016 – May 2017

-Worked on developing a interface for the Continuous Analysis of Many Cameras project
-Acted as the team leader who coordinated the workload and meetings

PROJECTS

Alert911 (Web Application)

Helps alert nearby citizens about crimes within a particular area. If the crime occurs and you are subscribed, you will receive a text message notification.

gymBuddy (Ionic Application)

Users can track their workouts by inputting their workout data. You can then view your workout data in a chart to see your progress.

SKILLS

JavaScript, Node.js, AngularJS, HTML/CSS, Java, C, C++, Python, SQL, AWS, SEO
